What are the Principles of Art?

- Emphasis
- Balance
- Unity
- Contrast
- Movement/Rhythm
- Pattern/Repetition
Pattern/Repetition

- An element that occurs over and over again in a composition.
- Can repeat the element in a consistent pattern.
- Can repeat the element in a variation of the pattern.
Repetition Examples
Emphasis in a composition refers to developing points of interest to pull the viewer's eye to important parts of the body of the work.
EMPHASIS EXAMPLES
**Balance** is a sense of stability in the body of work. Balance can be created by repeating same shapes and by creating a feeling of equal weight.
Balance Examples
Unity is seen in a painting or drawing when all the parts equal a whole.
Unity Examples
Contrast refers to the opposites and differences in the work. You can achieve variety by using different shapes, textures, colors and values in your work.
CONTRAST Examples
Movement adds excitement to your work by showing action and directing the viewer's eye throughout the picture plane. **Rhythm** is a type of movement in drawing and painting. It is seen in repeating of shapes and colors. Alternating lights and darks also give a sense of rhythm.
